

Your title

Author One • Author Two

This is your abstract. It should give a brief overview of your snapshot. If possible, please do not use formulas in your abstract. Please do not use more than 300 symbols. You will be asked to copy your abstract into the upload form on www.imaginary.org.

1 A heading

Your actual snapshot.* As usual, you can give references such as [1, 2] via the `\cite` command.

We appreciate if you include images or other graphics that illustrate your snapshot. However, please do keep in mind the copyright issues explained in our email in case you include images and graphics you have not produced yourself.

Figure 1: An image.

* This is a footnote.

1.1 A subsection

More text and some formulas:

$$1 + 1 = 2, \tag{1}$$

$$1 + 1 = 0. \tag{2}$$

Formula (1) refers to \mathbb{R} , formula (2) does not.

2 More Information

We have composed guidelines to help you write a beautiful and accessible snapshot which you can download here: <http://www.mfo.de/math-in-public/snapshots/guidelines-for-snapshots>. For more information on the snapshot project (including example snapshots), please see <http://www.mfo.de/math-in-public/snapshots>.

Snapshots of modern mathematics from Oberwolfach are written by participants in the scientific program of the Mathematisches Forschungsinstitut Oberwolfach (MFO). The snapshot project is designed to promote the understanding and appreciation of modern mathematics and mathematical research in the general public world-wide. It is part of the mathematics communication project 'Oberwolfach meets IMAGINARY' funded by the Klaus Tschira Foundation and the Oberwolfach Foundation. All snapshots can be found on www.imaginary.org.
