

# A great snapshot

---

John Thomson • Tom Johnson

This is your abstract. It should give a brief overview of your snapshot. If possible, please do not use formulas in your abstract.

## 1 A heading

Your actual snapshot. And here are some references as well: [**knuth1977fast**] ends up in the “Further Reading” section since its **bibtex** entry contains `keywords = {furtherreading}`, while [**knuth1986texbook**] ends up in the standard references.

Figure 1: An image.

John Thomson *is professor for pure mathematics at the Honolulu University.*

*Snapshots of modern mathematics from Oberwolfach* are written by participants in the scientific program of the Mathematisches Forschungsinstitut Oberwolfach (MFO). The snapshot project is designed to promote the understanding and appreciation of modern mathematics and mathematical research in the general public world-wide. It is part of the mathematics communication project 'Oberwolfach meets IMAGINARY' funded by the Klaus Tschira Foundation and the Oberwolfach Foundation. All snapshots can be found on [www.imaginary.org](http://www.imaginary.org).
